Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Note: This is in response to an Amendment filed 02/20/2007.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 2-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Richter et al. (U.S. 6,090,133).

Note in figures 15-21 of patent Richter et al., a selected length of an exitable lumen guide wire sheath (171) positioned along a first axis within a stent (110); a balloon catheter (170) positioned along a second axis within the stent (110); and wherein the first and second axes are parallel and coupled to one another which can be positioned in independent branches of multiple-branch vascular lesion (190,195) .

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 2-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Wilson et al. (U.S. 6,264,682).

Note in figures 13-22 of patent Wilson et al., a selected length of an exitable lumen guide wire sheath (55A,72) positioned along a first axis within a portion of

stent (20,76); a balloon catheter (50,70) positioned along a second axis within the stent (20,76); and wherein the first and second axes are parallel and coupled to one another which can be positioned in independent branches of multiple-branch vascular lesion (5,6).

Response to Arguments

4. Applicant's arguments filed 02/20/2007 have been fully considered but they are not persuasive. Applicant's arguments with respect to claims 2-6 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
